Subject: Draft CFAC DSR and SLERA comments
Attachments: CFAC-SLERA_comments.docx; CFAC-Phase I Report_comments.docx; Ecological Screening Values.xlsx

Mike:

Attached for your review please find compiled comments from CDM Smith (Erin, Sean, myself) and EPA (Brian) to the Columbia Falls Aluminum Company NPL Site *Draft Phase 1 Site Characterization Data Summary Report and Screening Level Ecological Risk Assessment*. Also attached please find an example Ecological Screening Values workbook that is part of the SLERA comments.

I called earlier, as I have a question on whether you are coordinating EPA's review with Montana DEQ's review of these documents. I know from past experience working on Anaconda that EPA has the state review and concur with draft comments before sending them out, but I do not know what your protocol is with CFAC. My experience is that each DEQ project officer operates a little differently than one another. Please give me a call if you want to discuss. I will be out of the office this afternoon, but back in tomorrow.

Thanks,

Gunnar Emilsson, P.G., P.E., BCEE
